

Pre-Migration Readiness for Office 365

Don't allow your Office 365 migration projects to get derailed due to your customer's outdated desktops and infrastructure.

Incompatible desktop software and outdated infrastructure are among the most common disruptions to a successful, on time Office 365 migration.

- An estimated 31% of user desktops are running operating system versions not supported by Office 365
- An estimated 20% of user desktops are running Office software versions not compatible with Office Pro Plus
- An estimated 43% of user desktops are running browser versions not supported for Office 365

With BitTitan HealthCheck for Office 365 you can easily and remotely assess your customer's entire corporate network for Office 365 migration readiness. Through the MSPComplete® platform, you'll deploy the lightweight Device Management Agent to relevant on-premises and remote workstations, servers, and devices to collect critical data concerning incompatibilities that may affect your project. Reporting is available in real-time and the data can be easily exported for customers.

HEALTHCHECK FOR OFFICE 365 ASSESSES:

-  Operating system versions
-  Internet browser versions
-  Office software versions
-  Average bandwidth speed

...and more!

Deploy

Deploy the agent through Group Policy or mass-email.

Scan

Watch while the HealthCheck dashboard populates with important readiness data for desktops and infrastructure.

Remediate

Bring desktops and infrastructure current before the migration begins and eliminate surprises.

This pre-migration assessment enables you to remedy any compatibility and infrastructure issues prior to beginning your cloud deployment project and ensures your cloud project is a success. When integrated into your selling strategy, you can accurately design and plan cloud deployment projects as well as uncover new sales opportunities.

- Plan better and eliminate surprises
- Develop a complete pre-migration readiness plan
- Close your Office 365 deals faster
- Plan resources better by incorporating desktop and infrastructure remediation
- Meet migration deadlines and eliminate disruptive surprises and delays

Try BitTitan HealthCheck for free on your next Office 365 migration project!
