Complete migrations for data, identities, and devices.

Organizations use BitTitan to modernize and migrate data, identities, and devices across Microsoft 365, Google Workspace, Active Directory, and Entra ID environments with minimal disruption. From mailboxes and SharePoint Sites to user identities and workstations, BitTitan gives IT teams and partners one unified approach to their most complex migration projects.

MIGRATION SCENARIOS

AI & Copilot readiness

Every AI rollout starts with a migration. Move mail, files, and sites into Microsoft 365 with permissions and sensitivity labels intact.

M&A and divestitures

Bring acquired teams onto one tenant or carve out a divested business. Coexistence keeps employees working from day one.

Tenant consolidation

Merge tenants into one Microsoft 365 environment, reduce content sprawl, and give Copilot one well-governed place to work.

Hybrid modernization

Move on-premises Active Directory and file servers to Entra ID and SharePoint Online, the cloud foundation AI needs to scale.

DATA MIGRATION — MIGRATIONWIZ

Mailbox Migration

Full-fidelity mailbox migrations.

- Mailboxes: email, contacts, calendars, journals, notes, tasks, and rules where applicable
- Wide roster of supported sources and endpoints

50 GB data limit · Per user

User Migration Bundle

One license for mailbox, documents, and archives.

- Mailboxes: email, contacts, calendars, tasks, and more
- **Documents** (OneDrive, Google Drive)
- **Microsoft Teams Private Chat** with full history and rich content
- Personal archives
- Microsoft 365 tenant-to-tenant coexistence

No data limit · Per user · Best value

Tenant Migration Bundle

Move and consolidate data between Microsoft 365 tenants.

- Covers Exchange, OneDrive, SharePoint, and Microsoft Teams workloads
- Includes everything in the **User Migration Bundle**, plus Teams Private Chat migration
- Choose either a Teams migration or 100 GB of shared documents

Unlimited Exchange & OneDrive

100 GB Teams / docs

Public Folders

Migrate public folder emails, calendars, contacts, and files. Shared mailbox targets supported.

Per 10 GB of data

NEW LICENSE

Flex Collaboration NEW

One flexible license for every collaboration workload.

- SharePoint Sites
- Microsoft Teams
- Microsoft 365 Group sites
- Google Shared Drives

- One license per site, team, or shared drive, in **100 GB increments**
- Unassigned licenses apply to any of the four workloads, and are reusable across projects
- Preserves sensitivity labels, metadata, permissions, and versions
- Teams: channels (incl. private), posts, conversation history, files, and attached libraries

Replaces the Teams Collaboration and Shared Documents licenses. One license covers a whole SharePoint Site, including every library.

SharePoint Sites NEW

1 site collection = 1 project

Move entire SharePoint Sites. Not just files.

- Full site collections, incl. subsites and libraries
- Site structure, navigation, content types, pages, and term store
- Metadata, custom columns, and managed metadata
- Permissions, groups, and custom permission levels
- Full version history, original authors, and timestamps
- Hub-site associations and hub term groups
- OneNote notebooks arrive as working notebooks
- Sensitivity labels stay on files, with encryption preserved
- Autodiscovery, plus optional site, subsite, and library filters
- Repeat passes pick up permission changes

SUPPORTED MIGRATION PATHS

SharePoint Online → SharePoint Online
File Server shares → SharePoint Online
Google Shared Drive → SharePoint Online
Google Shared Drive → Google Shared Drive

IDENTITY MIGRATION

Active Directory Migration

MIGRATIONWIZ

Enable on-premises identity and object migration to another Active Directory instance.

- Automatic discovery and migration of AD objects, including user accounts, groups, organizational units, and devices
- Simplified AD migration with password synchronization, random password generation, and real-time progress tracking
- Complements every migration scenario, including coexistence, multi-pass, and cutover
- Assures security and compliance of migrated identity data and SID History

Directory Sync

POWERED BY POWERSYNCPRO

Enable coexistence and identity synchronization across Active Directory, Entra ID, and Google Workspace.

- Supports Active Directory, Entra ID, and Google Workspace environments
- Advanced attribute mapping and transformation rules
- Supports hybrid, multi-tenant, and cross-platform migration scenarios
- Enables long-term coexistence and phased migrations

DEVICE MIGRATION

Migration Agent

POWERED BY POWERSYNCPRO

Zero-touch workstation migration.

- Preserves user profiles, settings, application configurations, and data
- Reconfigures device join states across Active Directory, Entra ID, and hybrid environments
- Automatically reconnects Outlook, Teams, and OneDrive
- Eliminates the need to rebuild or reimage devices

SERVICES

Onboarding Options

MIGRATIONWIZ & POWERSYNCPRO

Expert help and guidance for your migration, from start to finish.

- Dedicated customer success expert
- Configuration planning and set-up
- Definition of project scope, strategy, and success criteria
- Choose from Enterprise, SMB, or first-time-use packages

LICENSING AT A GLANCE

WHAT YOU'RE MOVING	LICENSE	DATA LIMIT	LICENSED PER
Email, calendars, contacts, tasks, and more	**Mailbox**	50 GB	User
Mailbox, archive, OneDrive / Google Drive, Teams chat	**User Migration Bundle**	No limit	User
Every Microsoft 365 workload, tenant to tenant	**Tenant Migration Bundle**	Unlimited Exchange & OneDrive; 100 GB Teams / docs	User
Public folder email, calendars, contacts, files	**Public Folders**	Sold in 10 GB increments	10 GB of data
SharePoint Sites, Teams, M365 Group sites, Google Shared Drives	**Flex Collaboration** NEW	100 GB per license	Site, team, or shared drive
On-premises AD users, groups, OUs, and devices	**Active Directory Migration**	Up to 1,000 users & security groups	User
Identity sync across AD, Entra ID, Google Workspace	**Directory Sync**	—	User
Windows workstations, profiles, and device join state	**Migration Agent**	—	Device

Flex Collaboration replaces the Teams Collaboration and Shared Documents licenses, which are being retired at the end of 2026. Already own unused licenses? You can still use them.

BitTitan

ABOUT BITTITAN

BitTitan® helps managed service providers and enterprise IT organizations modernize cloud environments by automating the migration of data, identities, and devices. Its portfolio includes MigrationWiz® for mailbox, document, SharePoint, and Microsoft Teams migrations, along with directory synchronization and device and workstation migration. Trusted by more than 345,000 IT professionals across 188 countries, BitTitan has powered tens of millions of user migrations.
