

Complete migrations for data, identities, and devices.

Organizations use BitTitan to modernize and migrate data, identities, and devices across Microsoft 365, Google Workspace, Active Directory, and Entra ID environments with minimal disruption. Together, MigrationWiz for workload migrations and the PowerSyncPro-powered Directory Sync and Migration Agent solutions provide a unified approach to tenant consolidations, mergers and acquisitions, Active Directory to Entra ID modernization, and other complex migration initiatives.

DATA MIGRATION

Mailbox Migration

Full fidelity mailbox migrations.

- Mailboxes (email, contacts, calendars, journals, notes, tasks, and rules where applicable)
- Wide roster of supported sources and endpoints
- 50 GB data limit

Tenant Migration Bundle

Move and consolidate data between Microsoft 365 tenants.

- Migrates all Microsoft 365 workloads: Exchange Online, OneDrive, SharePoint Online, and Microsoft Teams
- Now Includes Microsoft Teams Private Chat migration (full chat history, chat titles, rich content formatting, emojis, GIFs, stickers, and long text messages)
- Ideal for projects of 50 users and above
- Includes 1 UMB license and 1 Flex license (choose from Collaboration or Shared Documents licenses)
- Data limits apply

Collaboration Migration

Microsoft Teams

Migrate Microsoft Teams between tenants.

- Move Teams, channels, private chats, conversation history, files, OneNote, Planner, permissions, and more
- Autodiscover and import Teams
- Monitor and manage project at the individual Team level
- 100 GB data limit

Shared Documents Migration

Migrate to SharePoint, Microsoft 365 Groups document library or Google Shared Drives from any supported source.

- Migrate files, folders, permissions, versions, and metadata
- Any source to SharePoint Online or Office 365 Groups
- Google Shared Drive to Google Shared Drive
- Select the 50 GB data limit per license or 100 GB data limit per license

User Migration Bundle

Single license for mailbox, documents (OneDrive, Google Drive), and archives.

- Mailboxes (email, contacts, calendars, journals, notes, tasks, and rules where applicable)
- Plus**
- Documents (OneDrive, Google Drive)
- **Now Includes Microsoft Teams Private Chat migration** (full chat history, chat titles, rich content formatting, emojis, GIFs, stickers, and long text messages)
- Personal Archives
- Microsoft 365 Tenant to Tenant Coexistence
- No data limit

IDENTITY MIGRATION

Active Directory Migration

Powered by MigrationWiz

Enable on-premises identity/object migration to another Active Directory instance.

- Automatic discovery and migration of AD objects including user accounts, groups, organizational units, and devices
- Simplified Active Directory migration with password synchronization, random password generation, and real-time progress tracking
- Complimentary to all migration scenarios including coexistence, multi-pass and cutover
- Assure security and compliance of migrated identity data and SID History

Directory Sync

Powered by PowerSyncPro

Enable coexistence and identity synchronization across Active Directory, Entra ID, and Google Workspace environments.

- Supports Active Directory, Entra ID, and Google Workspace environments
- Advanced attribute mapping and transformation rules
- Supports hybrid, multi-tenant, and cross platform migration scenarios
- Enables long-term coexistence and phased migrations

DEVICE MIGRATION

Migration Agent

Powered by PowerSyncPro

Zero-touch workstation migration.

- Preserves user profiles, settings, and application configurations and data
- Reconfigures device join states across Active Directory, Entra ID, and hybrid environments
- Automatically reconnects Outlook, Teams, and OneDrive
- Eliminates the need to rebuild or reimagine devices

SERVICES

MigrationWiz & PowerSyncPro Onboarding Options

Expert help and guidance for migrations before your project begins - from start to finish.

- Dedicated customer success expert
- Configuration planning and set-up
- Definition of project scope, strategy, and success criteria
- Choose from Enterprise, SMB and or first-time-use packages
