

MigrationWiz Onboarding Offers

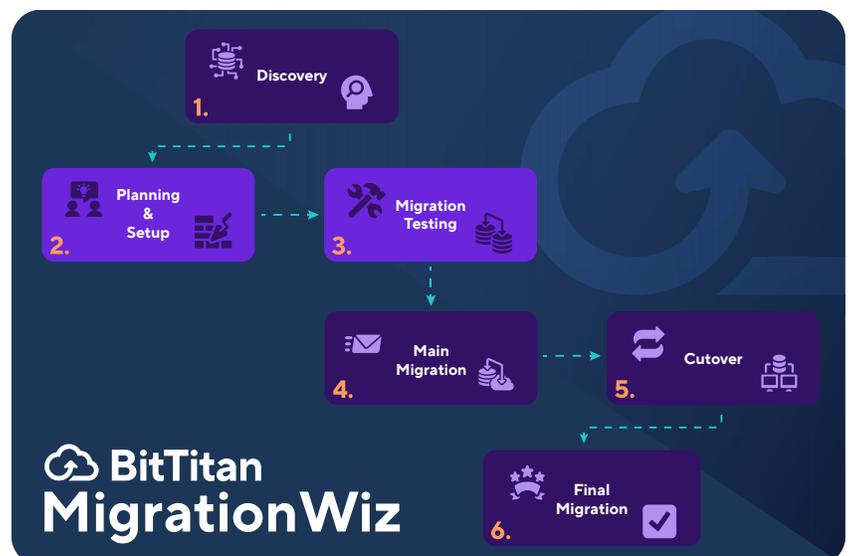

Three Onboarding Options for Migration Success

Whether you're new to migrations or facing a project that's more complex than what you're used to, choosing MigrationWiz is the first step to a seamless migration. MigrationWiz consistently earns points for being both full-featured and intuitive. But don't worry, we're here for you whenever you need some extra help planning and executing your project.

Customer engagement needs will vary depending on the size and scope of your project, so BitTitan offers three levels of onboarding to make sure you're on the right path to success. With Enterprise Onboarding and Standard Onboarding, you'll work with a dedicated customer success manager who will help your team plan a migration through proof-of-concept. Which package you choose will depend on the size and complexity of your migration. If you need someone to walk you through the basics of a migration, Advisor Hours give you dedicated one-on-one time to get your questions answered.

The BitTitan Customer Success Team is dedicated to making each migration project a success. The onboarding programs present guidance and methodology providing clear objectives during the planning and scoping phases of a migration. Our strong knowledgebase can help you navigate complex tenant environments and answer your questions so you can be the hero of your next migration project.

Choose the
service package
that's best for
your project
