A flexible migration tool to perform secure cloud deployments

Data is always encrypted and never stored when moving your data with MigrationWiz. In fact, all migrations never leave the Azure environment, meaning we can adhere to D.O.D security standards staying compliant for every step of your migration process. At BitTitan, we take privacy and compliance seriously and have more than 10 years of secure data migration experience. MigrationWiz is certified to move private data for on-premises and cloud deployments.

MigrationWiz has successfully performed migrations for:
